Natural Care Gel

Greaseless gel for skin irritations. Enriched with Aloë Vera and Panthenol. An effective treatment for: radiation dermatitis, peristomal irritations and nasal cannula induced irritations. Oil free formulation will not interfere with the application of adhesive tapes or ostomy appliances. Will not degrade rubber or latex garments.

In Acute Radiation Dermatitis: NATURAL CARE Gel is indicated for the relief and palliative control of the inflammatory and pruritic topical manifestations

of radiation therapy.

Dry desquamation:

Apply NATURAL CARE Gel liberally to irritated skin area at least 3 to 4 times a day.

Wet desquamation:

1. Cleanse affected site with BIOLEX WOUND Cleanser. Avoid antiseptic agents unless area becomes infected.
2. Apply NATURAL CARE Gel liberally to irritated skin at least 3 to 4 times a day.

Peristomal Skin Irritations:

1. Cleanse irritated skin with an appropriate skin cleanser such as Bard HYGIENE 1 Wash.
2. Rinse and dry thoroughly.
3. Apply NATURAL CARE Gel to irritated peristomal skin site and gently massage in until dry to the touch.

4 oz
